

HILAL HABEEB

Tubli,Bahrain | hilalhabeeb.bh@gmail.com | (+973) 34567505 | hilalhabeeb.online

SUMMARY

AI/ML Engineer with experience developing intelligent business applications, ERP platforms, workflow automation systems, and data-driven solutions. Skilled in Python, Scikit-Learn, TensorFlow, ERPNext, REST APIs, and cloud technologies, with a focus on machine learning, operational optimization, automation, and digital transformation. Passionate about Artificial Intelligence, Generative AI, and solving real-world business challenges.

WORK EXPERIENCE

Web & ERPNext Developer,World Shading - Salmabad,Bahrain **JUL 2024 - Present**

- Developed and customized ERPNext/Frappe applications to automate business operations and streamline workflows.
- Built custom modules, portals, dashboards, and reporting solutions tailored to company-specific processes.
- Integrated ERPNext with WooCommerce, WhatsApp Cloud API, payment gateways, and third-party platforms using REST APIs.
- Developed AI-powered business solutions, including ERP-integrated chatbots, intelligent automation, and workflow systems.
- Applied data-driven approaches for operational optimization, cost estimation, business analytics, and decision support.

Junior Python Developer, DataPy - Kerala ,India **Mar 2024 – Jul 2024**

- Completed intensive training in Python programming, data science, and machine learning.
- Gained hands-on experience with libraries such as NumPy, Pandas, and scikit-learn.
- Worked with machine learning algorithms such as regression, classification, and clustering.
- Worked on basic data processing, analysis, and model-building tasks.

SKILLS

- Languages: Python (Django, Frappe), JavaScript, PHP
- Frontend: HTML, CSS, React, WordPress
- AI & Machine Learning: Scikit-Learn, TensorFlow, LLM Integration, AI Agents, OpenCV, Data Analysis, Machine Learning
- Databases: MySQL, PostgreSQL, MongoDB
- Cloud & Tools: AWS EC2, Docker,VPS, Git, Figma
- Backend & Integration: REST APIs, Webhooks, System Integration, Workflow Automation

EDUCATION

Master of Computer Applications (MCA) **Oct 2022 – May 2024**

Amal Jyothi College of Engineering, Koovappally- India **CGPA: 8.6 / 10**

- Major in Advanced Software Engineering
- Rank 2 holder in Semester.

Bachelor of Computer Applications (BCA) **Aug 2019 – May 2022**

St. George's College, Aruvithura, Erattupetta- India. **CGPA: 6.5 / 10**

PROJECTS

1) Shade Fabric Waste Optimization & Cost Estimation System

- Developed machine learning models to optimize shade fabric cutting layouts and reduce material waste during production.
- Applied data analysis and predictive techniques to improve material utilization, production efficiency, and cost control.
- Designed intelligent cost estimation workflows using material consumption, labor requirements, and production parameters.

2) RAG-Based AI Chatbot Integration with ERP.

- Developed a Retrieval-Augmented Generation (RAG) chatbot integrated with ERPNext to deliver intelligent, context-aware responses using enterprise data.
- Implemented automated data retrieval from ERPNext databases and external knowledge sources to provide accurate, real-time answers for customer and internal queries.
