PROFESSIONAL SUMMARY

Solution-driven software developer passionate about building efficient and scalable applications. Proficient in Python, Django, React, and cloud platforms, with hands-on experience in ERP systems, full-stack web development, and data-driven solutions. Quickly adapt to new technologies and consistently deliver user-focused applications that solve real-world problems and drive innovation.

WORK EXPERIENCE

Web & ERP Developer, World Shading, Hamad Town, Bahrain **Aug 2024 - Present**

- Develop and customize business ERP solutions using the Frappe Framework (Python & JavaScript), including custom modules, scripts, and UI enhancements.
- Automated workflows and integrated third-party services using REST APIs, scheduled tasks, and role-based permission systems.

Junior Python Developer ,DataPy ,Thiruvananthapuram **Mar 2024 - July 2024**

- Completed intensive training in Python programming and Data Science/Machine Learning.
- Acquired hands-on experience with Python libraries such as NumPy, Pandas, and scikit-learn.

EDUCATION

Master of Computer Application (MCA) **Oct 2022 - May 2024**
Amal Jyothi College of Engineering,Koovappally **CGPA 8.6/10**

- Specialization in Advanced Software Engineering.

Bachelor of Computer Application (BCA) **Aug 2019 - May 2022**
St George's College , Aruvithura **CGPA 6.4/10**

Secondary School **Aug 2017 - May 2019**
St Thomas HSS ,Erumeli **Score 83%**

SKILLS

- Programming Languages: Python (Django), PHP, C, C++, Java
- Web Development: HTML, CSS, JavaScript, React, WordPress
- Databases: MySQL, MongoDB, PostgreSQL
- Tools & Platforms: Docker, AWS EC2, Figma, REST APIs
- Testing: Selenium WebDriver, Cucumber.
- Development Methods: Agile, Scrum, Waterfall
- Soft Skills: Adaptability, Problem-Solving, Critical Thinking, Decision Making

PROJECT

- **Sportigo** :Developed a Python Django-based football turf booking system, simplifying turf slot management and incorporating a machine learning model for turf recommendation based on user preferences and historical booking data. Hosted on AWS EC2 FT. Testing: Selenium.
- **ePark.bh**: Developed a digital solution for machine-paid parking in Bahrain, enabling users to pay fees online without leaving their car. Integrated OpenCV for real-time number plate recognition.
- **E-Commerce Website**: Developed a fully customized WooCommerce website, optimizing product display, checkout flow, and integrating AHLI Bank payment gateway(MPGS) to enhance user experience and boost sales conversions.

CERTIFICATIONS

- Docker Essentials: A Developer Introduction (IBM)
- Cloud Computing and Introduction to IoT Certification, NPTEL, 2023
- AWS Academy Graduate - AWS Academy Introduction to Cloud, AWS Academy, 2023

AWARDS

- Best Academic project 2024 : Python Django (S grade)
- Manager Honor Certificate for Academic Excellence - Third semester
- Top 2 performer in MCA program -Third & Fourth semester.
